Dentec Full Body Harness Contractor with Back Pad and Quick Connect

Product information

The Contractor 3-D quick-connect full body safety harness is a CSA-certified fall protection harness with back and hip D-rings for fall arrest and positioning applications. Quick-connect buckles support efficient donning and removal, while padded shoulders and a breathable foam back pad improve comfort during extended wear. A removable tool belt provides space for carrying tools and accessories.

Best used for:

- Fall protection work requiring back attachment and hip positioning points.
- Extended tasks requiring quick-connect buckles and on-harness tool carrying.

Product benefits:

- Three D-rings support back attachment and hip positioning applications.
- Quick-connect buckles simplify harness donning and removal.
- Padded shoulders and breathable back pad improve extended-wear comfort.
- Removable tool belt accommodates tools and tool bags during work.
- CSA certification supports specified fall protection requirements.
