PIP Hard Hat Chin Strap Dyna-Clic

Product information

The PIP® 4-point padded hard hat chin strap is an adjustable nylon retention accessory designed to help keep hard hats securely positioned when working at heights. Its Fidlock magnetic clip allows convenient fastening without removing hand protection, while plastic snaps enable attachment to compatible suspension headbands.

Best used for:

- Work at heights where additional hard hat retention is required.
- Replacement chin strap for Kilimanjaro Type II hard hats (280-HP642R-CH and 280-HP642RV-CH).

Product benefits:

- Four-point padded design provides secure retention and improved wearing comfort.
- Adjustable nylon straps allow fitting to individual head sizes.
- Fidlock magnetic clip enables fastening without removing protective gloves.
- Plastic snap attachments simplify installation onto suspension headbands.
- Universal suspension compatibility supports use across hard hats with suspension systems.
