

Clevis Foundry Hook Cartec CYFX

Product information

Clevis foundry hook CYFX designed for grade 100 lifting applications. Features a wide throat opening for easy engagement and a clevis connection for direct attachment to chain slings. Built from high-strength alloy steel to ensure durability and reliability under heavy loads. Ideal for use in foundries and industrial environments where quick, secure handling of molds and components is required. Engineered for demanding lifting operations, offering robust performance and long service life.

Marking: CE-marked

Safety factor: 4:1

Grade: 10
