Tractel Full-Body Harness Phoenix AC432

Product information

The Phoenix harness AC432 series is a lightweight industrial fall arrest and restraint harness designed for compliance-focused work at height. Its adjustable construction and quick-connect leg straps support practical fitting while maintaining the required attachment and support points for fall protection applications.

Best used for:

- Industrial fall arrest applications where a lightweight harness is required.
- Work restraint applications requiring an adjustable, compliant harness.

Product benefits:

- High-tenacity polyester webbing provides a durable, lightweight harness construction.
- Three-point adjustment supports practical fitting across different users.
- Quick-connect leg straps simplify fitting and removal.
- Sewn sub-pelvic strap provides additional support during fall arrest.
- Inspection tag and serial number support identification and inspection records
