Tractel Harness Elastrac® FMT95

Product information

The Elastrac® FMT95 series is an all-purpose fall arrest and work positioning harness designed to support mobility during demanding industrial work. Dual Elaspac construction allows controlled extension while the independent leg and seat support system helps maintain freedom of movement when walking, bending or climbing.

Best used for:

- Fall arrest and work positioning in construction and industrial rigging.
- Wind industry and tower climbing applications requiring mobility and adjustment.

Product benefits:

- Dual Elaspac provides ±2 in. (±5 cm) extension for controlled mobility.
- Independent leg and seat support reduces restriction during movement.
- Breathable TracX shoulder and back pad improves wearer comfort.
- Five-point adjustment and quick-connect buckles simplify fit and fastening.
- Dual impact and inspection indicators support harness inspection.
