Tractel Full-Body Harness TracX AU732/X

Product information

The TracX AU732/X series is an adjustable fall arrest harness designed for industrial work at height, with selected models supporting work positioning and additional tool-carrying requirements. The TracX pad, breathable lining and multiple adjustment points help improve fit and comfort during extended use, while integrated inspection and identification features support routine equipment checks.

Best used for:

- Industrial fall arrest in construction and other work-at-height environments.
- Selected configurations for work positioning, retrieval, ladder climbing and suspension.

Product benefits:

- Seven-point adjustment supports a secure, individual fit.
- TracX pad and breathable lining improve comfort during extended wear.
- Snap-release lanyard keepers help keep unused lanyard arms controlled.
- Back and side D-rings support fall arrest and positioning configurations.
- Fall indicators, inspection tag and serial number simplify equipment inspection and traceability.
