Tractel Harness with Belt Vesafit EBD95

Product information

The Versafit EBD95 series harness with belt is an adjustable fall arrest and work-positioning harness for industrial applications. Adjustable leg, shoulder, chest and sub-pelvic straps allow the harness to be fitted to the user, while padded shoulder and back support improve comfort during extended wear.

Best used for:

- Industrial fall arrest applications requiring an adjustable full-body harness.
- Work positioning where side D-rings and belt support are required.

Product benefits:

- Multiple adjustment points support a secure, comfortable individual fit.
- Padded back support belt and shoulder pads improve wearing comfort.
- Dorsal and side D-rings support fall arrest and work positioning.
- Removable tool belt accommodates pouches for task-specific equipment.
- Fall indicators, inspection tag and serial number simplify inspection and traceability.
