PIP Hard Hat Whistler

Product information

The PIP® Whistler™ HP241R is a cap-style hard hat with a UV-stabilized HDPE shell and 4-point textile suspension. It is designed for industrial head protection where Type I impact protection and Class E electrical insulation are required, with adjustable fitting features to support secure, comfortable wear.

Best used for:

- Industrial and construction environments requiring Type I head protection.
- Electrical work requiring Class E insulation up to 20,000 volts.

Product benefits:

- Lightweight UV-stabilized HDPE shell helps reduce wearer fatigue.
- 4-point textile suspension and crown pad support a secure, comfortable fit.
- SURE LOCK ratchet enables convenient one-handed size adjustment.
- Low nape strap helps maintain fit when bending or looking down.
