PIP Hard Hat Kilimanjaro

Product information

The PIP® Kilimanjaro™ HP641R is a full brim safety hard hat designed for industrial workplaces requiring head protection against falling objects and electrical hazards. Its lightweight, UV-stabilized HDPE shell, four-point textile suspension and adjustable wheel ratchet provide a secure, comfortable fit during daily use.

Best used for:

- Construction, industrial maintenance and other workplaces requiring Type I head protection.
- Work environments requiring Class E electrical insulation and compatibility with additional PPE.

Product benefits:

- UV-stabilized HDPE shell provides lightweight protection while reducing wearer fatigue.
- Four-point textile suspension and low nape strap maintain fit during bending.
- SURE LOCK wheel ratchet enables convenient one-handed size adjustment.
- Replaceable foam sweatband and adjustable suspension height support comfort and fit.
- Universal accessory slots accommodate eye, face and hearing protection equipment.
