PIP Hard Hat Mont-Blanc

Product information

The PIP® Mont-Blanc™ HP542R is a Type II cap style hard hat designed to protect against top, side, front and rear impacts in industrial workplaces. It features a lightweight HDPE shell, an EPS impact-absorbing liner and a four-point textile suspension with wheel ratchet adjustment. The hard hat conforms to ANSI Z89.1 and CSA Z94.1 Type II, Class E requirements for impact and electrical protection.

Best used for:

- Construction, industrial maintenance and worksites requiring Type II multidirectional impact protection.
- Outdoor workplaces exposed to rain and environments requiring Class E electrical protection.

Product benefits:

- Lightweight HDPE shell provides durable head protection with reduced wearing weight.
- EPS liner enhances protection against side, front and rear impacts.
- SURE LOCK four-point ratchet suspension allows secure, adjustable fitting with padded comfort.
- Rain trough design helps channel rainwater away during outdoor work.
- Universal accessory slots and chin strap compatibility support additional protective equipment.
