PIP Climbing Helmet RZRBack

Product information

The PIP® Type II industrial safety helmet provides head protection against top and lateral impacts when working at heights or in confined spaces. Its lightweight ABS/polycarbonate shell, high-density foam liner and adjustable four-point suspension combine impact protection with wearing comfort.

Best used for:

- Work at heights or in confined spaces requiring Type II multidirectional impact protection.
- Industrial environments requiring compatible eye, face and hearing protection accessories.

Product benefits:

- ABS/polycarbonate shell and foam liner provide lightweight, multidirectional impact protection.
- Four-point suspension with dual height adjustment supports a secure, customized fit.
- Dyna-Clic magnetic chin strap helps retain the helmet during slips or falls.
- Bamboo fiber padding and ventilated liner improve breathability and wearing comfort.
- Four accessory slots and replaceable components support PPE integration and extended service life.
