Dentec Full Body Harness Koala Behr with Quick Connect Buckles

Product information

The Koala Behr is a 5-point universal-size full body safety harness for fall protection, featuring anti-panic steel quick-connect buckles for faster donning and removal. Soft tubular polyester webbing and adjustable torso straps support comfortable extended wear, with a single rear D-ring for lanyard attachment.

Best used for:

- Fall protection applications requiring a CSA-certified full body harness.
- Work requiring frequent harness donning and removal using quick-connect buckles.

Product benefits:

- Steel quick-connect buckles support fast, straightforward donning and removal.
- Soft tubular webbing improves comfort during extended wear.
- Lightweight construction supports mobility during prolonged work periods.
- Universal sizing accommodates a wide range of male and female users.
- Lanyard parks provide storage and help reduce trip hazards.
