Dentec 5-Point Full Body Harness Koala Behr

Product information

The Koala Behr is a 5-point universal-size full body safety harness for fall protection applications, designed with soft tubular polyester webbing for comfort during extended wear. A single rear D-ring provides the lanyard attachment point, while adjustable torso straps and tongue-and-buckle leg straps support a secure, consistent fit.

Best used for:

- Fall protection applications requiring a CSA-certified full body harness.
- Work environments where extended wear and adjustable universal sizing are required.

Product benefits:

- Soft tubular webbing improves comfort during extended wear.
- Tongue-and-buckle leg straps help maintain the selected adjustment.
- Universal sizing accommodates a wide range of male and female users.
- Lanyard parks provide convenient storage and help reduce trip hazards.
- Protective label cover helps preserve inspection information from the elements
