Dentec Full Body Harness Contractor with Back Pad

Product information

The Contractor 3-D full body safety harness is a CSA-certified fall protection harness with back and hip D-rings for fall arrest and positioning applications. Padded shoulders, a breathable foam back pad and a removable tool belt support extended use when workers need to carry tools or accessories.

Best used for:

- Fall protection work requiring back attachment and hip positioning points.
- Extended tasks where tools or tool bags need to be carried on the harness.

Product benefits:

- Three D-rings support back attachment and hip positioning applications.
- Padded shoulders and breathable back pad improve extended-wear comfort.
- Removable tool belt accommodates tools and tool bags during work.
- Tongue-and-buckle leg straps help maintain the selected adjustment.
- CSA certification supports specified fall protection requirements.
