## TRANSPORT CHAIN - GRADE 70

### FEATURES

The grade 70 chains are extremely strong for their light weight and are mostly used for loading on platform trucks in the transportation field. They are also widely used on farms, for wood transportation, towing and construction. The ratio of great strength versus the weight of the grade 70 chains is achieved through a special heat treatment. They resist wear thanks to their exceptional hardness properties.

### MATERIAL :

- High-carbon steel, heat treated

### FINITION :

- Zinc plated with gold chromate finish

Sold at the foot or barrel

### ACCESSORIES :

- Can be supplied in assembly with forged shackle hooks at each end and other required accessories.

- Meets ASTM & NACM standards and FMCSA & CVSA requirements

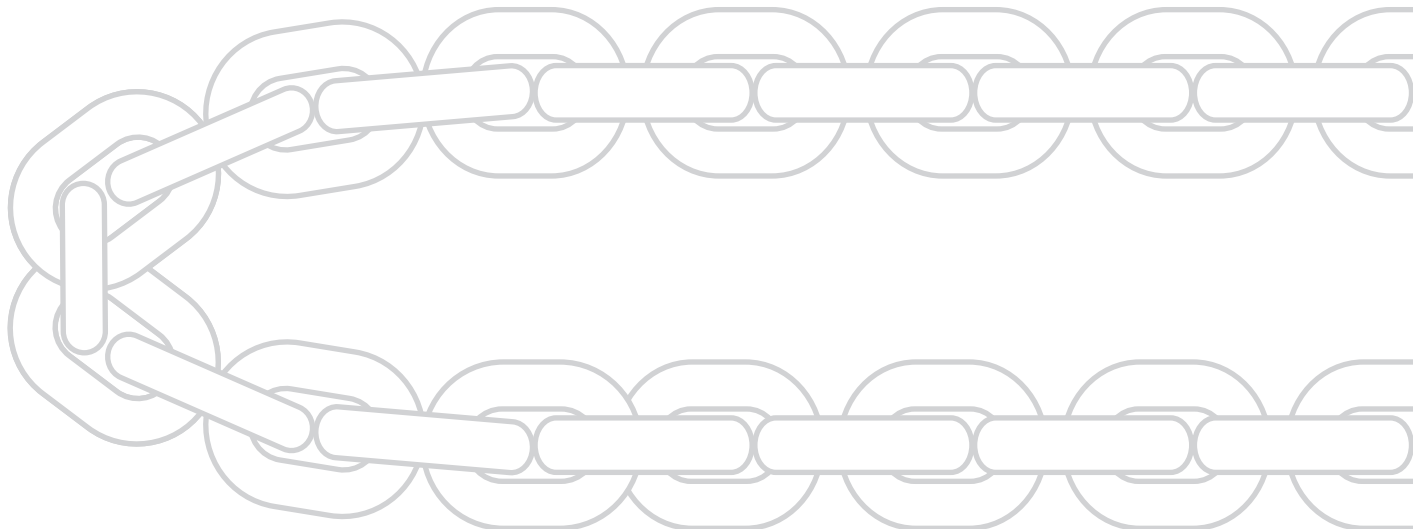

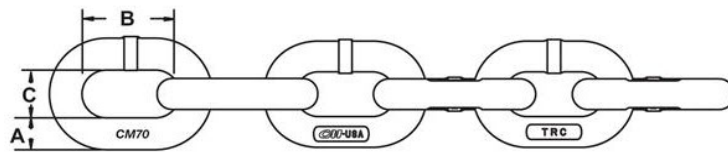

**PERMANENT IDENTIFICATION ON CHAIN, EMBOSSED WITH G70, PLUS 3 LETTER TRACE CODE, 100% PROOF TESTED**
